is a **Corporate Parent**

How we support students who are under **SRUC's Corporate Parenting Umbrella**

Staff at SRUC are committed to supporting all students during their SRUC journey to ensure that they achieve a positive outcome.

SRUC will liaise with workers, local authorities, social workers and carers with the shared aim of supporting both those who have been in the care system, and others, in making successful transitions to an independent life, learning and work.

Contact the student support team for your campus where a member of our team will respond to your requirements in a discreet and respectful manner.

We can support you when you are considering applying, during the application process, including support with funding, and throughout your studies.

How to declare that you fall under our Corporate Umbrella:

There are a number of ways in which you can tell us that you fall into one of the categories listed on the cover of this leaflet.

- **When you first make contact.**
- **Tell us on your application form.**
- **Tell your year tutor, programme leader, any lecturer or the campus study support team.**

You can declare to us at any time during your SRUC journey if you are in any of these groups. It's never too late to declare!

I wonder what support SRUC can offer me?

Named staff at each campus

Offer regular catch up meetings

Emotional, mental health and physical well-being support

Support with your academic work

Transition support for care experienced students

Careers and progression support

Liaise with internal and external contacts on your behalf

Funding Support
